

Typical for a project of this scale, multiple crews of up to 85 men were utilized to complete the bulk of this fast-track hardscape project in approximately 90 days. Architectural concrete crews routinely placed over 100 square yards of stamped and integrally colored concrete per day in order to successfully complete the project on schedule. ■

BUILDING AN OUTDOOR EXPERIENCE AT THE HARDROCK

The hardscape portion of the Hardrock Hotel & Casino in Hollywood, Florida, features over 100,000 square feet of architectural concrete paving in five finishes.

The project also incorporates architectural cast stone planters, pilasters with caps, seat walls and water features to tie the decorative paving and building architecture together. ■
